[Smart For Two](#)

Leah was super responsive. She also just added a keybox to the car, so pick up and drop off logistics are super simple. The car is clean, super fuel efficient (hybrid), and has a convenient reserved parking spot a few blocks from 24th St BART. Definitely a good rental experience.

[VW Golf 2012](#)

Great car, had to drive to out of the city for something last minute and was easy to obtain.

Easiest first trip with sharoo I could have hoped for- unlock and lock from your phone, convenient parking and a straight forward driving experience. Car is great and I plan on using it again in the future!

hi - hope the car worked out okay. in the future, please pay attention to the residential permit zones on the street signs to avoid potentially getting a ticket. i have an "R" permit but you parked the car in an "S" zone. thanks.
